Subject: Requesting to use the holding currently unused appeal fees of my inactive application as no. 10/669,668.. to pay for certain active applications for examination

Dear Mr. Charles Steven Brantley,

I refer to your letter of June 1, 2011 indicating that my current applications are dismissed under 37 CFR 1.183 provided that your office receives the required fee of \$ 400 each, which will be refunded to me as a waiver after considering the merits of the petitions no. 11/982,774, 11/891,842.

I find myself in a financial hardship resulting that I am inability to make any payment for abandoned applications pending in your office during years. An invention has its nature to produce a fortune of creating new jobs and imposing IRS taxes on such activities. The only way as proposed is to use the holding currently unused appeal fees of my inactive applications to pay for certain active applications which are needed in process of examination by your office action. This is a solution to overcome the standstill and to benefit both of us in a way of accelerating the patent application issue for putting the invention into practice without losing its mature time and interest.

The filing fee payments of my inactive applications will be made at a later stage in the next turn until my situation improves.

I appreciate your confirmation that you accept the same condition as well among applications no. 11/511,897, 11/499,092, 11/175,645, 11/409,918.

Thank you for your appreciation.

Respectfully yours,

Henri Duong
